

Ann Morgan:

"Here are the 15 fat-burning foods that cause you to lose weight..."

Everyone who will try them can lose five to six pounds during the first week. Get results!

Nutritionists have discovered that certain foods cause you to lose weight. These are foods with fat-burning calories. The more you eat, the more weight you lose.

In a report that you can receive without obligation, you will discover what these foods are, why they cause you to lose weight, and how.

QUESTION: How can certain foods cause you to lose weight?

ANSWER: Experiments have shown that 15 particularly healthful and nutritious foods (some of which are vegetables and fruits) burn more calories than they contribute. So the more you eat, the more you burn off your excess weight. These foods (with fat-burning calories) are transformed into energy, not fat.

Q: How is this possible?

A: The power of fat-burning foods to dissolve excess fat will seem obvious to you when you understand how your body accumulates fat.

You are born with a certain number of "adipose" cells. These adipose cells swell up and multiply when you take on too much weight. As soon as your metabolism slows down, this allows carbohydrate-based foods to be changed into fat. This fat is stored.

Therefore, you cannot lose weight by draining the fat from the cells.

You can only do this in three ways: omit foods that are rich in fat (dieting); intensive exercising; or eating foods with fat-burning calories that burn off the fat and drain it from you cells.

Obviously, it is the last method that is far and away the easiest because it requires no effort, no deprivation.

Q: How many pounds can you lose per week?

A: If you are more than 20 pounds overweight, you lose an average of five to six pounds in the first week, and three to four pounds in subsequent weeks.

If you are more than 20 pounds overweight, you will lose weight even more quickly. Some people with more than 40 pounds to lose have lost up to 7 pounds in the first week.

Q: Do you have to follow some kind of special diet? Or is it just a question of adding fat-burning calorie foods to your normal diet?

A: You don't have to follow any diet, or change anything in your lifestyle. You can eat pastries, sauces, butter, cake, anything you want.

The only thing you have to do is add fat-burning calorie foods to your normal diet... and watch your pounds and rolls of fat disappear.

Q: How many fat-burning calorie foods do I have to add to my normal diet?

A: Just add 25% of your normal diet. But you can exceed that amount because the more fat-burning calorie foods you eat, the more quickly you lose weight.

Q: Instead of adding these fat-burning calorie foods, can I just replace 25% of my normal diet with them?

A: Yes, because that is not really important. The only thing that is important is to absorb at least 25% fat-burning calorie foods because these are the ones that burn off the excess fat and cause you to lose weight.

Q: Will it be easy for me to maintain my ideal weight after losing my excess pounds?

A: Most people who lose weight with diets of pills or other methods quickly gain back the weight they have lost.

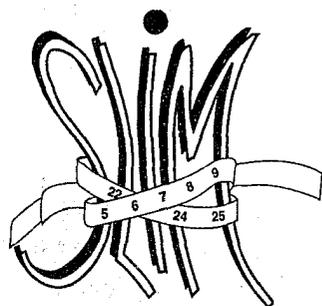

But with fat-burning calorie foods, it is different. The only thing you have to do to keep slim is to add fat-burning calorie foods to your normal diet.

Q: What are these fat-burning calorie foods? Where can you get them?

A: All these fat-burning calorie foods are natural foods. There are 15 of them. Among them are fruits, vegetables and other natural foods that you will find in any supermarket or at your grocer.

Q: Is there any proof that people have tried fat-burning calorie foods and have really lost weight?

A: Everyone who has added fat-burning calorie foods to their normal diet has lost weight. Here are some good things that could happen to you:

LOSE WEIGHT! An Amazing Discovery: Fat-burning foods

Now you can lose weight easily, even if you eat a little too much

"I had tried everything..."

I have lost 35 pounds. All my life I have suffered from being fat and I had tried everything to lose weight. The fat-burning calorie foods are the only thing that have ever worked for me. I feel like a new woman. My husband also lost 23 pounds. We are delighted to have rediscovered the joy of life that we had long since lost.

"My excess weight melted away..."

In three weeks, I lost 19 pounds of excess weight. Since then I have not regained that fat. Because I had already tried so many methods and medications to lose weight, I no longer believed in any of them. But I tried this anyway. Thank heaven! Maybe my experience can be of help to other people.

"I thought I would be fat all my life..."

I often dreamed of becoming slim, but nothing I ever tried ever helped me lose weight. Now I have discovered fat-burning calories. I lost 23 pounds in two short weeks and a total of 38 pounds more quickly than I would have dared to hope. My husband told me last night that I am prettier than I ever have been.

Q: I have read in a magazine that fat-burning calorie foods not only help lose weight, but also improve your health. Is that true?

A: Yes. Fat-burning calorie foods were discovered by nutritionist physicians

during their search for healthier foods. When you add fat-burning calorie foods to your normal diet, you lose weight but you also lower and normalize your cholesterol rate. This always contributes to your health.

Q: I have already tried bean pod capsules, pineapple capsules, other methods, other diets, and nothing helped me lose weight. Why would it be different this time?

A: Because the process of fat-burning calories is natural: you burn off more calories than you absorb. Because everyone who has tried them has lost weight, there is no reason that it would work for everyone else and not for you. The results are so certain that you can try this at our risk, and with no obligation.

Try these foods that help you lose weight, with no obligation and completely at our risk. Decide only AFTER having lost your excess pounds if you want to keep the Report.

HERE IS MY PROPOSAL:

If you do not lose at least five pounds per week, within 90 days return the Report on "Fat-Burning Foods that Cause Weight Loss" and I will send you your money back no later than nine days after receipt of your returned package.

Therefore, either you lose at least five pounds per week until you reach your ideal weight, or I will refund the price of the report.

This is unconditional, no questions asked. This is a written, formal obligation on my part.

No Risk for You

You can, therefore, accept this trial offer simply out of curiosity, because you are not risking a single cent.

Why Would I Dare Make This Offer?

Because I am convinced that when you have lost your excess pounds, you will be so happy that you will want to keep the Report on foods that make you lose weight.

Because everyone, absolutely everyone, who has adopted these foods that cause you to lose weight have lost their excess pounds.

Because there is no reason why it would work for others and not work for you.

"... They possess certain special properties that add zip to your system and help it melt away unhealthy pounds! You have to try them to see the results".
